Summary of Info #2 P:077 24/25 Jul 90

SG1A

There are/were 9 vessels within the vicinity a portion of [redacted] within the vicinity of docks or wharfs (see diagram). Two vessels (labeled #1 & #2) are involved with contraband drugs.

Vessel #1 has a rusty or faded red hull and white superstructure w/ large rusted areas where the paint is peeling. It has one ~~last~~ large mast-like object and two smaller angular objects on deck. This vessel has a central hold area where frozen fish or meat is stored. In between the solid layers/blocks of fish/meat & ice are layers of small packages wrapped in what resembled white freezer wrapping paper. The words ANTIQUA and MARYSPORT are associated with this vessel. It's destination is the west coast of Mexico.

Vessel #2 has a dark blue or black hull with a white superstructure which sits far forward. There are one or two masts present on deck. There is a hold area within the center of the ship where barrel-like containers are lying on their sides. It is an area of the ship that is dark, rusty and has an oily smell. Forward of these containers is a dimly lite section where boxes are stored. These boxes are hiding an area further forward, which contains smaller, flatter boxes. These boxes are holding small,
